

Jamie HARTMANN-BOYCE

Jamie Hartmann-Boyce is an Associate Professor of Health Policy and Management at the University of Massachusetts Amherst and an internationally recognized public health researcher. Her work focuses on evidence synthesis, behavioral science, and tobacco control, with particular expertise in smoking cessation and the health impacts of nicotine and tobacco products. She has led and contributed to numerous high-impact systematic reviews, including Cochrane reviews on electronic cigarettes and other cessation interventions, helping to inform clinical guidelines and public health policy worldwide. Hartmann-Boyce's research emphasizes rigorous methodology, transparent communication of evidence, and the translation of research findings into practice and policy.
